# DIAGRAMS

Draw diagrams to scale or as close to scale as possible. Allow a person to locate where the markers are placed or will be placed. Show important distances on the diagram. All distances must be in feet. Identify the exact location of the marker buoy by indicating the distance from one or more fixed objects that have a known location, or provide the GPS coordinates of the buoy's placement. Show the relationship of the buoy to other riparian owners, significant objects and water areas. You can also use a map to establish the exact location of the buoy and then produce a diagram showing the buoy in relation to the fixed objects.
